About This Dashboard

This dashboard provides a snapshot of key youth outcomes for The Youth Complex during January–February 2025. It summarises youth participation, engagement levels, mentor interactions, and demographic patterns to support programme planning and grant reporting.

- Total Active Youth shows how many young people engaged with TYC during this period.
- Red Flags Logged reflects the number of youth needing immediate support.
- Youth Engagement Score highlights overall wellbeing and participation across social, emotional, academic, and behavioural areas.
- Event Participation Breakdown shows which community events received the highest attendance.
- Gender Distribution provides a demographic profile of the active youth population.
- Mentor Sessions Completed tracks how consistently youth are meeting with mentors.
- Needs Heatmap visualises areas where youth require the most support. This snapshot helps TYC identify trends, allocate resources, and communicate programme impact to partners, funders, and the community.
